## drylining tapes

### **RS444 SCRIM**

RS444 Plasterboard Scrim tape is a high tack, self adhesive fibreglass reinforced plasterers tape. Flexible to apply and prevent bubbling during application. RSL have chosen a heavy duty grade mesh (74gsm) allowing an extra coat weight of adhesion.

Retail packed.

### **RS405 PAPER PLASTERBOARD CORNER TAPE**

RS405 Paper Plasterboard corner tape is a kraft tape designed for use with jointing compounds to reinforce and strengthen plasterboard joints and corners. Retains strength when wet, with tapered edges for invisible seams and strong crease in centre for an effective fold.

### **RS460 ALKALINE MESH TAPE**

RS460 Fibreglass mesh is woven from fibreglass bulk yarn used in various construction applications. These include external rendering, reinforcing wall cracks and drywall joints.

### **SP80 GRIT SANDPAPER**

### **SP100 GRIT SANDPAPER**

### **SP120 GRIT SANDPAPER**

Our Grit sandpaper is available in various grades, including P80, P100 & P120. Used to smooth or remove surface imperfections or general roughness. Ideal for a wide range of sanding applications. Suitable for universal pole sanders.

25 sheets per pack. 100mm X 280MM

Contact our sales team for more detailed information on our extensive tape range.

We offer an unrivalled technical back-up service, next day delivery when required & low value carriage paid threshold.
